

# DVDXpressDX2

## Effortlessly Save & Share Memories on DVD or CD

- Transfer video from VHS tapes, digital or analog camcorders directly to DVD or CD\*
- Real-Time hardware conversion produces the best DVD quality results

Now there is a fun and easy way to get all of your old VHS tapes on to CD or DVD\* so you can preserve your family treasures for a lifetime. Capture, edit, and share your home movie collection on Video CD or DVD disc and share with friends and family. One simple USB connection to your PC and you are ready to archive all your home videos direct to disc. DVD Xpress provides simple steps to get started capturing and publishing your video, you can even capture direct to disc in one simple step, yet it also includes video editing and DVD authoring tools that let you unleash your creative talents with video editing and effects.

### Capture Wizard

CapWiz is an easy to use video capture tool for direct capture of video into the DVD format or several other video formats such as VCD, SVCD, DivX, and MPEG-4. It provides easy to follow Wizard screens for video capture and a "Direct to Disc" wizard which allows you to archive your video tapes directly to CD or DVD in just a few quick easy steps. Use the CapWiz VCR type buttons to easily record, play and pause video playback. CapWiz is easy for the novice yet powerful enough for the experienced video editor....you may never want to use any other video capture software!

### ArcSoft ShowBiz
