

InstantHDTV PCI

Receive Free Over the Air HDTV Broadcasts on your PC

- Turn your PC into an HDTV Home Theatre
- Enjoy the crystal clear quality of HDTV Broadcasts
- Watch, Record and Playback HDTV on your PC

HDTV is here now!

Today 95% of all households in the U.S. can receive HDTV from at least one network broadcaster. And more than 85% can receive an HDTV signal from three or more network broadcasters.

Enjoy all the clarity and brilliance of crystal clear HDTV broadcasts on your PC monitor instead of buying a new HDTV. HDTV broadcast's look better because they have up to 6 times the resolution of standard TV broadcasts and many broadcasts include Dolby 5.1 Audio so HDTV sounds better too! And HDTV is FREE - HD Shows are broadcast over the air, no need for cable TV or satellite subscriptions. Just add Instant HDTV PCI and a TV antenna to receive HDTV! If you still have analog Cable TV in your house you can also use the Instant HDTV PCI to receive standard TV and Cable broadcasts in addition to HDTV broadcasts.

ADS Tech MediaTV PVR Included Inside

Free yourself from your TV set and network programming schedules. Watch your favorite TV shows WHERE you want, WHEN you want!
Easily trim and cut commercials from captured TV programs.
Take your shows on the road! With MediaTV, you can record TV and take it with you to watch on portable media devices or burn them on CD or DVD- all in an easy to use application.

A Powerful yet simple tool for your multimedia collection

MediaTV is an all-in-one solution for your entire multimedia collection that's dynamic and simple at the same time: record your favorite TV shows and burn to DVD, create custom audio playlists, rip audio CDs and burn your own compilations, share custom slide shows on disc, complete with audio, edit and enhance images with simple controls.
